

PROCEEDINGS OF THE  
FIFTH NATIONAL CONFERENCE ON

# WIND ENGINEERING 2009

## NCWE-2009

4th - 6th November 2009

INDIAN SOCIETY FOR  
WIND ENGINEERING

S. V. NATIONAL INSTITUTE  
OF TECHNOLOGY, SURAT

## CONTENTS

Preface

Director's Message

Registrar's Message

### KEY-NOTE LECTURES

- M** Modelling Of Across-Wind Force and Response of A Circular Chimney Including Lock-In Effects 1  
*S. Arunachalam\* and N. Lakshmanan*
- M** Artificial Neural Network modeling for Across Wind Response on Tall Buildings. 26  
*Kanchan Patil and P.N.Godbole*
- Numerical Simulation of Wind Flow Over Prismatic Buildings 40  
*A K Ghosh*
- M** Trends and Concerns in the Development of Wind Engineering 53  
*Prem Krishna*
- Wind Design Issues for Tall Buildings ? 65  
*Alpa Sheth*
- M** Wind Engineering – Need for R & D Thrust 68  
*Dr. N.Lakshmanan*
- X** Wind Flow and Vortex Dynamics 78  
*Shaswat Saincher and Jyotirmay Banerjee*
- M** Wind-Induced Interference Effects on Tall Buildings - A Review for Codification 87  
*Dr. Abhay Gupta, Dr. Naveen Kwatra*
- X** Renewable Energy obligations and Tariff In India 112  
*Mahesh Vipradas*

## TECHNICAL PAPERS

- M** **Pseudo Static Analysis of Innovative Wind Mill and it's Foundation subjected to wind loads** 116  
*Dr. Atul K Desai*
- Weibull Parameters for Wind Speed Distribution In India** 134  
*Arnab Sarkar, Michael Kasperski*
- Wind loads: where does our code of practice stand?** 159  
*Bhami Mohammed, C. Cini, K. Suresh Kumar*
- Wind Tunnel Studies on Effect of External Projections on Wind Pressure Distribution on Buildings** 171  
*P.K.Bhargava and V.K.Sharma*
- Wind Loads on Attached Projections to Low Rise Buildings** 186  
*Rajesh Goyal, A.K. Ahuja*
- Experimental and Numerical Simulation of The Axisymmetric Dry Microburst** 194  
*K.K.Dasa, \*, A.K.Ghoshb, K.P.Sinhamahapatrac*
- Nonlinear Aerostaic Analysis of Cable-Stayed Bridges Considering IRC Vehicular Loading** 198  
*N D Shah, J A Desai*
- M** **Experimental Study on Cable Stayed Pavilion Roofs** 210  
*Rajeev Gupta*
- Implementation of ANN for multi-objective optimal reactive compensation of a power system with wind generators** 220  
*Ami Patel, Tejendra Patel*
- Implementation of Real Time Probablistc Transmission Congestion Forecasting Considering Wind Power Integration** 230  
*Tejendra Patel, Ami Patel*
- Weight Comparison of Transmission Line Tower Based on Wind Category** 241  
*Hemang Trivedi & C J Patel*

16	<b>M Use of Maintance platforms as Tuned Mass Damper in tall RC chimneys</b>	247
	<i>V.Fulzele, K.R.C. Reddy and O.R.Jaiswal</i>	
34	<b>Application of CFD in Stack Interference</b>	257
	<i>Prapanj Ganeshan , Suresh Kumar, Jon Galsworthy</i>	
59	<b>M Numerical Simulation of Wind Tunnel Test for Natural Draft Cooling Tower With Interference Effect: A CFD Approach</b>	266
	<i>Jeya Baskar Va*, Meher Prasad Aa, Sundararajan Tb, Ramasubramanian Sc , Khasim Khanc,</i>	
1	<b>Full-Scale Measurements of Wind Speeds During A Cyclonic Storm</b>	276
	<i>A. Abraham, P. Harikrishna, S. Arunachalam, N. Lakshmanan, and S. Gomathinayagam</i>	
6	<b>Wind Analysis of Temporary Structure for Exhibition</b>	287
	<i>Naseeruddin Haris, Dr. Gupta L.M</i> ✕	

## KEY-NOTE LECTURES
