## KEY NOTE LECTURES

1. Wind Engineering: A Multidisciplinary Approach  
*Kishor C. Mehta* 3
2. Computer Modeling for Bridge Aerodynamics  
*R. Panneer Selvam* 11
3. Design of Buildings for Cyclone-prone Areas  
*N. Lakshmanan* 26
4. Wind Disasters in the Indian Region and Mitigation Efforts  
*Prem Krishna* 40
5. Atmospheric Emissions, Dispersion Phenomenon and Air Pollution  
Control Techniques  
*K.K. Chaudhry* 50
6. Atmospheric Dispersion of Pollutants  
*A.K. Ghosh* 64
7. ANN Applications in Wind Engineering  
*P.N. Godbole* 75
8. Instrumentation of National wind Tunnel Facility at IIT Kanpur  
*Kamal Poddar* 92

## I.S. WIND CODE PROVISIONS

9. Wind Pressures on Gable Buildings and Codal Provisions  
*Naveen Kwatra, P.N. Godbole and Prem Krishna* 97
10. Critical Appraisal of IS-875 (Part 3)-1987 with AA1170.2-1989  
Applied to Multistoreyed Steel Building  
*Shruti Sharma and N.P. Devgan* 114
11. Wind Loads-Codal Provisions on Low-Rise Building Projections  
*Kailash Narayan, Krishen Kumar, Ajay Gairola* 124

**ATMOSPHERIC BOUNDARY LAYERS AND EXTREME WINDS**

12. Site Specific Cyclone Landfall Probability Using Statistics of Historical Track Data  
*P. Harikrishna, S. Gomathinayagam, A. Annadurai and N. Lakshmanan* 139
13. Parameters of Risk Coefficients for Structures Located in Cyclone Prone Regions  
*N. Lakshmanan, S. Arunachalam and P. Harikrishna* 145
14. Tornado Response Spectra & Tornado Critical Traces - A New Development  
*B.L. Agarwal, A.K. Ghosh and P.K. Dutta* 154

**WIND EFFECTS ON BUILDINGS**

15. Wind Tunnel Studies on Direct Measurements of Forces and Pressures on Model of a Low-rise Building  
*Lakshmanan, N., Selvi Rajan, S., Arunachalam, S. and Ramesh Babu, G.* 169
16. Testing of Fasteners and Sheeting for Low Rise Buildings  
*A.R. Santhakumar and M. Umamageshwari* 178
17. Computation of Wind Effects on Three Square Buildings in Tandem Arrangement  
*J.L. Narasimhan, B.H.L. Gowda, B.R.V. Raghava Raju* 185
18. Effect of Wind Load vis-a-vis the Number of Stories  
*A.R. Mundhada, Naveen Sonavane, Sanjay Kumar Rai and Dheeraj Kumar* 196
19. Effect of Wind Turbulence Parameters on the Response of Tall Rectangular Buildings  
*Houshyar Eimani-Kalehsar, Krishen Kumar, P.N. Godbole* 205
20. Effect of Wind Load on Multistoreyed Residential Buildings  
*Virendra Kumar, M.M. Prasad, and Sanjay Kumar* 215
21. Effect of Wind Direction on Interference amongst Low-Rise Hip Roof Buildings  
*Shakeel Ahmad, Krishen Kumar and Hassan Irtaza* 228
22. Variation Effect of Parameters Influencing along Wind Response of High Rise Buildings  
*Shakeel Ahmad and Sabih Akhtar* 235

**AERODYNAMIC EFFECTS ON TOWERS AND CHIMNEYS**

23. Aerodynamic Studies on Reinforced Concrete Chimneys  
*Lakshmy P. and R.K. Garg* 245
24. Zones of Critical Interference around TV Tower  
*Rajeev Gupta, Prem Krishna, P.K. Pande, Krishen Kumar* 255

25. Turbulent Wind and Double Hinged Articulated Tower 266  
*Suhail Ahmed and Nazarul Islam*
26. Wind Load Analysis of 300m Lattice T.V. Tower 278  
*Ranjan Sonparote and Abhay Tawalare*
- WIND LOAD ON BRIDGES**
27. An Overview of Aerodynamic Investigation and Design of  
Some Selected Cable Stayed Bridges 287  
*S.S. Mishra*
- BLUFF BODY AERODYNAMICS**
28. Unsteady Two-dimensional Flow Field Behind Perforated Plates 303  
*Subhash C. Yaragal and H.S. Govinda Ram*
29. Concept of Wind Pressure and Gust Factor for Structure 311  
*S.P. Chendakapure, S.B. Borghate and L.M. Gupta*
- COMPUTATIONAL FLUID DYNAMICS**
30. Experimental Study of Separated Flow 321  
*Ajay Gairola*
31. Development of a Code Using LES for the Study of Wind Flow  
over Prismatic Building 335  
*S.K. Maharana, A.K. Ghosh*
32. Investigation of Tornado Forces on a 2D Cylinder using  
Computer Modeling 342  
*R. Panneer Selvam, Uday K. Roy, Yangki Jung, Kishor C. Mehta*
33. Numerical Simulation of Wind Flow around Buildings:  
Adoption of Model Constants 354  
*F. Mandal, P. Bhargava, and C.S.P. Ojha*
- WIND TUNNEL TESTING AND INSTRUMENTATION**
34. Experimental Study of Wind Pressure Distribution on Three High-rise  
Prismatic Bodies in Tandem Arrangement 371  
*J.L. Narasimhan, B.H.L. Gowda, B.R.V. Raghava Raju*
- ATMOSPHERIC DISPERSION OF EMISSIONS**
35. Wind Tunnel Simulation Study on the Effect of Homogeneous Traffic  
on Vertical Dispersion Parameter in the Near Field of Roadways 385  
*Khare, M., Chaudhry, K.K., Gowda, R.M.M. and Ahmad, K.*

36. Comparison of the Wind Tunnel Data with the Modified Multi-vehicle Wake Model  
*Khare, M., Chaudhry, K.K., Gowda, R.M.M., Ahmad, K.* 396

### FIELD STUDIES AND MEASUREMENTS

37. Full Scale Effective Pressure Measurements on a Flat Space Grid Roof  
*Gomathinayagam S., Lakshmanan, N. and Harikrishna P.* 411
38. Field Measurement of Wind and Structural Response on a 50m Tall Guyed Mast in an Open Terrain  
*Annadurai A., Harikrishna P., Gomathinayagam S. and Lakshmanan N.* 422
39. Model/Full Scale Comparison of Pressures on the Roof of the Texas Tech University (TTU) Experimental Building  
*Shakeel Ahmad, Krishen Kumar and Iqbal Khalil Khan* 432

### WIND ENERGY

40. 'Significance of Wind Energy in the New Millenium'  
*Amit Raysoni* 447

### RELATED TOPICS OF CURRENT INTEREST

41. Studies On Wind Climate In India  
*P.K. Bhargava* 459
42. Case Study for the Assessment of Basic Wind Speed for the Determination of Wind Load on Structures for Paradip Refinery, Orissa  
*S.C. Jain, V.K. Gupta and S.P. Chakraborty* 471
- Author Index* 477
- Subject Index* 479
